Data Visualization with Power BI and Tableau

Practical – XII

Roll No.: T025	Name: Afsha Amjad Mujawar
Class: TYIT	Batch: 1
Date of Assignment: 29-09-2026	Date/Time of Submission: 29-09-2026

Aim: Sharing, Publishing, and Presenting Data Visualizations.

A. Export Dashboard as PDF/Image

Step 1: Download Dataset

1. Download the Netflix Movies and TV Shows dataset.
2. The file required is:
[netflix_titles.csv](#)
3. Open Tableau Desktop/Public.
4. Select Text File.
5. Browse and select [netflix_titles.csv](#).
6. Click Open.

Step 2: Create Content Type Split

1. Create a new worksheet.
2. Rename it Content Type Split.
3. Drag Type → Rows.
4. Drag Number of Records / Count of netflix_titles → Columns.
5. Drag Type → Color.
6. You should get a bar chart showing:
 - Movies
 - TV Shows.

Step 3: Create Growth by Release Year

1. Create a new worksheet.
2. Rename it Growth by Release Year.
3. Drag Release Year → Columns.
4. Make sure the Release Year is Continuous.
5. Drag Number of Records / Count of netflix_titles → Rows.
6. Drag Type → Color.
7. Drag Release Year → Filters.
8. Select Range of Values.
9. Set:
 - From: 2000
 - To: 2021
10. Click OK.

You should get a two-line chart showing Movies and TV Shows growth.

Step 4: Create Top 10 Ratings

1. Create a new worksheet.
2. Rename it Top 10 Ratings.
3. Drag Rating → Rows.
4. Drag Number of Records / Count of netflix_titles → Columns.
5. Sort the bars in descending order.
6. Remove/filter Null ratings if present.

Step 5: Create Dashboard

1. Click New Dashboard.

2. Rename it:
Netflix Executive Overview
3. Under Size, select:
Fixed Size → A4 Landscape
4. Add a Horizontal/Vertical Container.
5. Add a Text object at the top.
6. Enter:
Netflix Global Content Catalog Analysis
7. Set the title to approximately 20 pt Bold.
8. Place the sheets:
 - Content Type Split → Top Left
 - Top 10 Ratings → Top Right
 - Growth by Release Year → Bottom.

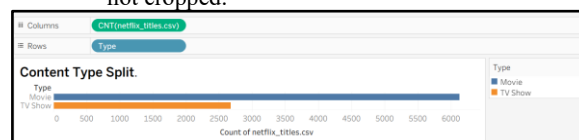

Step 6: Export Dashboard as Image

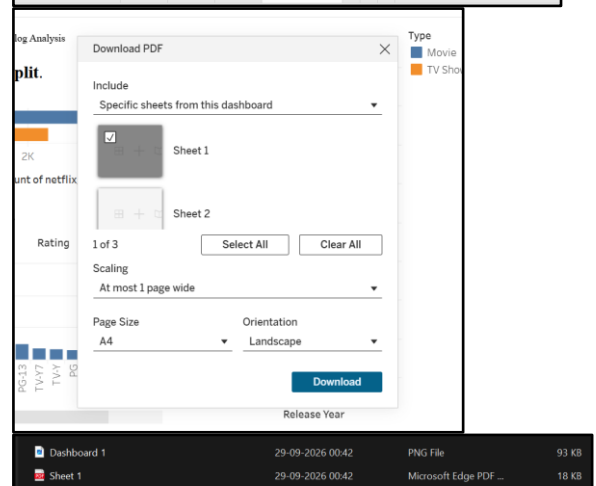

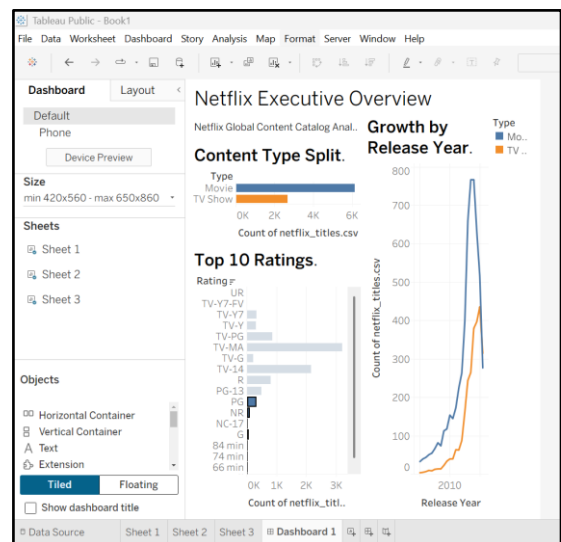

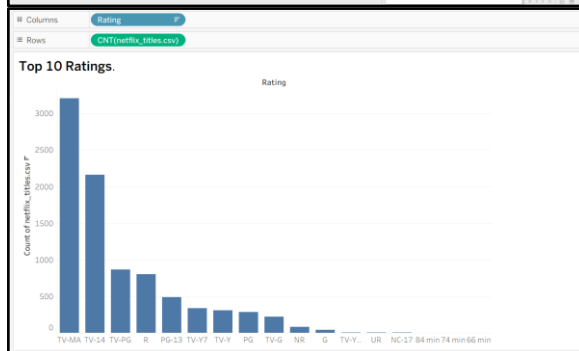

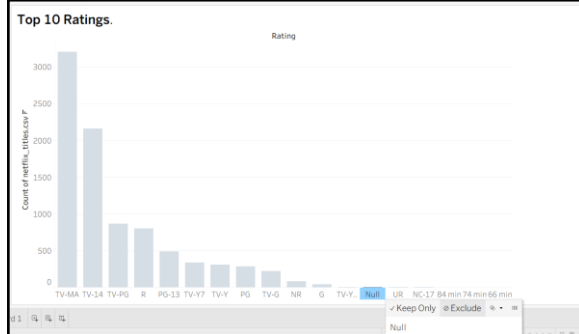

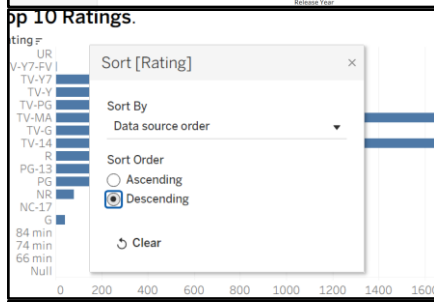

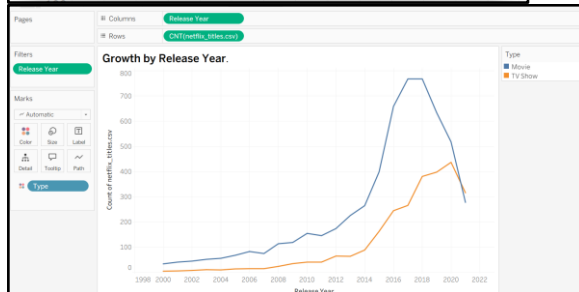

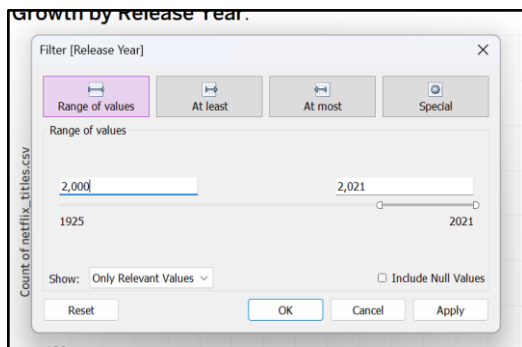

1. Open:
Dashboard → Export Image
2. Select the location.
3. File name:
[Netflix_Executive_Overview.png](#)
4. Select PNG.
5. Click Save.

You can also use EMF if a vector image is required for PowerPoint.

Step 7: Export Dashboard as PDF

1. Go to:
File → Page Setup
2. Set:
 - Page Type → A4
 - Orientation → Landscape
 - Scaling → Fit to 1 page wide × 1 page high
3. Click OK.
4. Go to:
File → Print to PDF
5. Select This Dashboard.
6. Set paper size to A4.
7. Set orientation to Landscape.
8. Save as:
[Netflix_Catalog_Report.pdf](#)
9. Open the PDF and check that the dashboard is not cropped.

B. Use presentation mode in Tableau

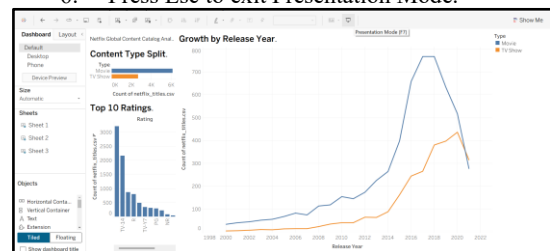

Step 8: Open Presentation Mode

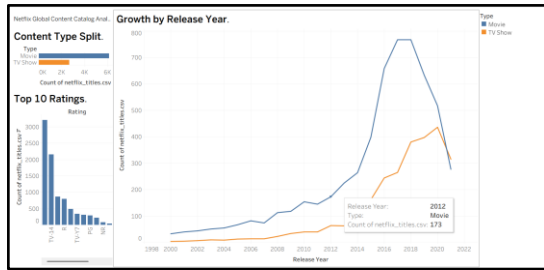

1. Open Netflix Executive Overview.
2. Use one of these methods:
 - Press F7 on Windows.
 - Or use the Presentation Mode icon.
 - Or go to Window → Presentation Mode.

3. Tableau will display the dashboard in a clean presentation view.

Step 9: Test Presentation

1. Hover over different bars and points.
2. Check the tooltips.
3. Click a chart mark to test filtering.
4. Use the navigation arrows to move between sheets.
5. Use Page Up/Page Down if required.
6. Press Esc to exit Presentation Mode.

C. Publish dashboards to Tableau Public

Step 10: Save Packaged Workbook

Before publishing, create a packaged workbook.

1. Go to Data Source.
2. Select Extract if the data is currently live.
3. In the Data Pane, select:
Hide All Unused Fields
4. Return to the dashboard.
5. Make sure Netflix Executive Overview is the active dashboard.
6. Go to:
File → Export Packaged Workbook or Save As.
7. Select:

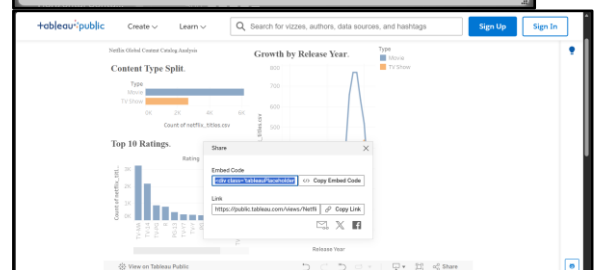

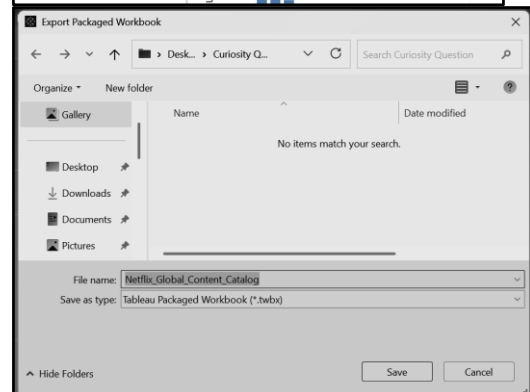

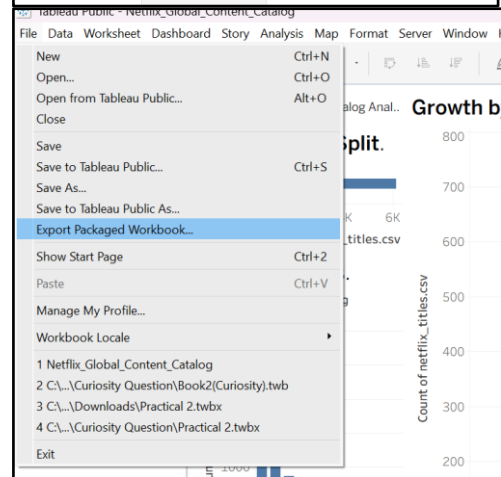

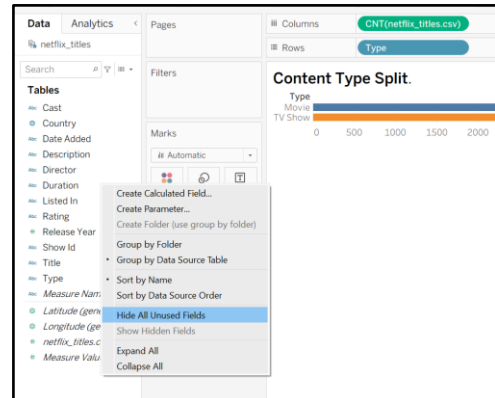

Tableau Packaged Workbook (*.twbx)

8. Name it: **Netflix_Global_Content_Catalog.twbx**
9. Click Save.

Step 11: Upload to Tableau Public

If you have a Tableau Public account:

1. Open Tableau Public website.
2. Sign in.
3. Open your profile.
4. Select Create / Upload.
5. Upload: **Netflix_Global_Content_Catalog.twbx**
6. Wait for the upload.
7. Open the published dashboard.
8. Test the Movie/TV Show interaction.
9. Click Share to obtain the dashboard link.

D. Share dashboards via Tableau Server/Online

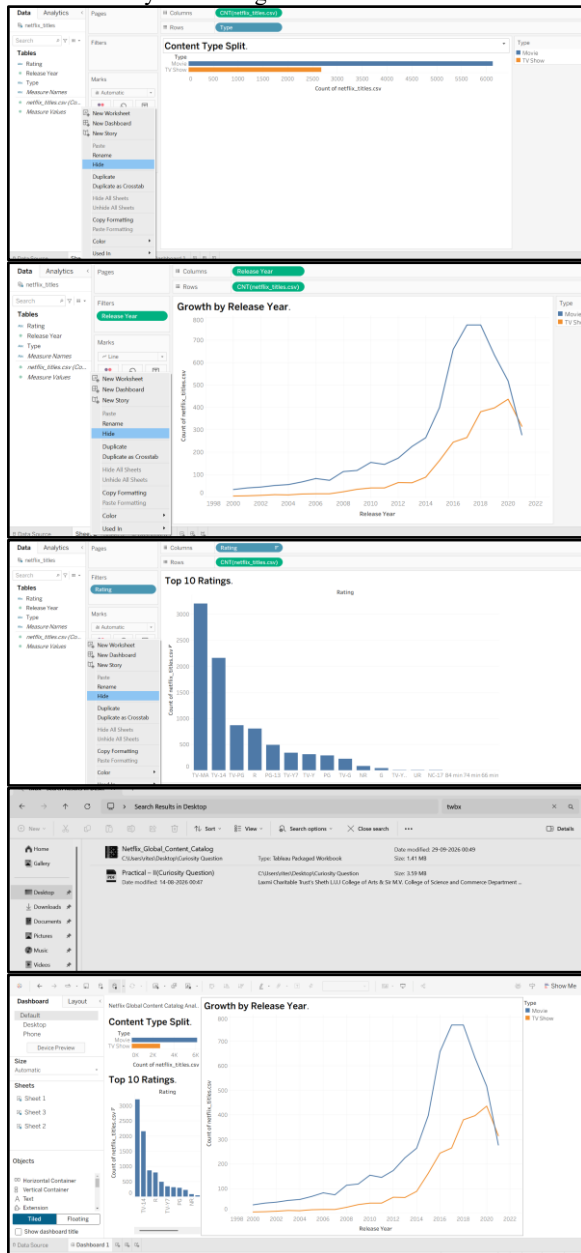

Step 12: Hide Individual Worksheets

1. Right-click Content Type Split tab.
2. Select Hide Sheet.
3. Right-click Growth by Release Year.
4. Select Hide Sheet.
5. Right-click Top 10 Ratings.
6. Select Hide Sheet.
7. Keep Netflix Executive Overview visible.

This creates a cleaner dashboard for users.

Step 13: Test Packaged Workbook

1. Save the .twbx file.
2. Close Tableau.
3. Double-click: **Netflix_Global_Content_Catalog.twbx**
4. Check:
 - Dashboard opens correctly.
 - Raw worksheets are hidden.
 - No CSV path error appears.
 - No database password is requested.
5. If everything works, your packaged workbook is ready for sharing.

E. Enable user interaction on shared dashboards

Step 14: Create Tooltip Rating Breakdown

1. Create a new worksheet.
2. Name it: **Tooltip Rating Breakdown**
3. Drag Rating → Rows.
4. Drag Count of netflix_titles → Columns.
5. Drag Rating → Color.

6. Sort descending.
- Step 15: Add Viz in Tooltip
1. Open Content Type Split.
 2. On the Marks card, click Tooltip.
 3. Click Insert.
 4. Select:
 - Sheets → Tooltip Rating Breakdown
 5. Click OK.
 6. Return to the dashboard.
 7. Hover over Movie.
 8. A small rating chart should appear in the tooltip.
 9. Hover over TV Show and verify that the rating information changes.

Step 16: Add Filter Action

1. Open Netflix Executive Overview.
2. Go to:

Dashboard → Actions

3. Click Add Action → Filter.
4. Set:

Name: **Filter_by_Content_Type**

5. Source Sheet:
 - Content Type Split
6. Run action on:
 - Select
7. Target Sheets:
 - Growth by Release Year
 - Top 10 Ratings
8. Clearing selection:
 - Show all values
9. Click OK.
10. Click OK again.

Test

Click Movies in the bar chart.

The other charts should automatically filter to Movies.

Click again/clear the selection to return to all data.

Step 17: Add URL Action

1. Go to:

Dashboard → Actions

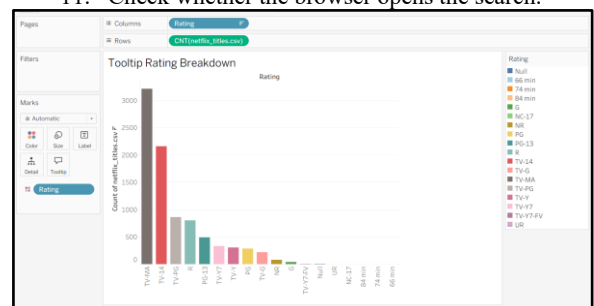

2. Click Add Action → Go to URL.
3. Name it:

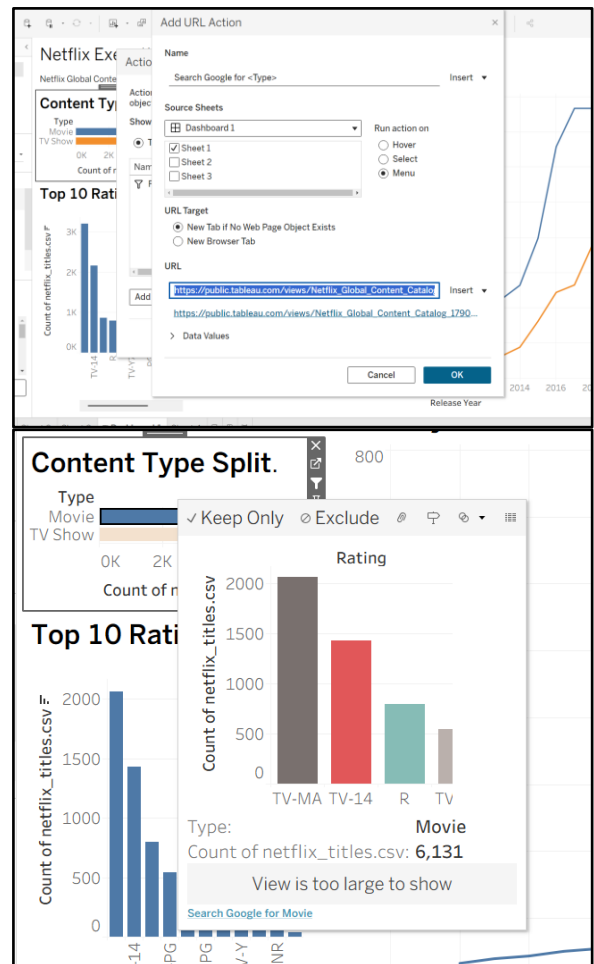

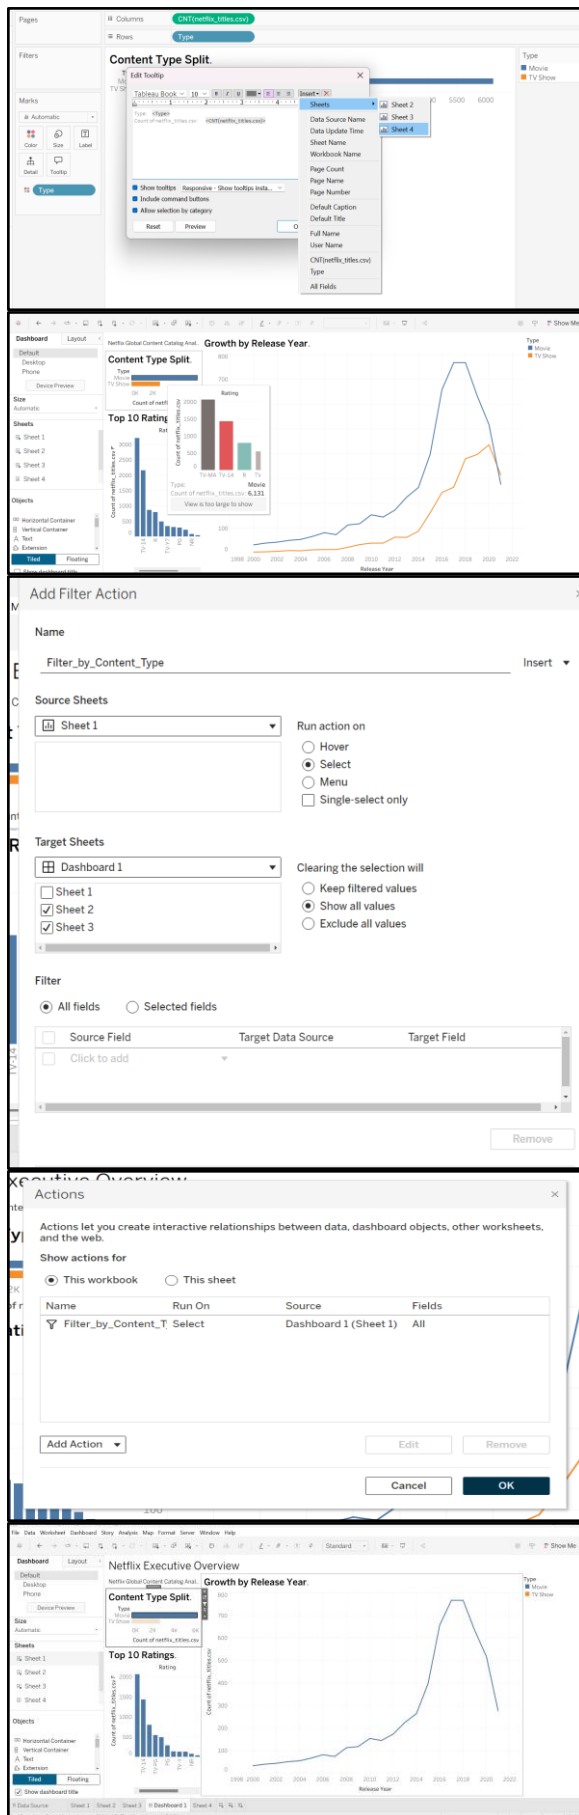

Search Google for <Type>

4. Source Sheet:
 - Content Type Split
5. Run action on:
 - Menu
6. Enter the URL:

<https://www.google.com/search?q=Netflix+<Type>+Catalog>

7. Use Tableau's Insert option to insert the Type field dynamically.
8. Click OK.
9. Hover over a bar.
10. Click the URL menu.
11. Check whether the browser opens the search.

F. Manage permissions and access control

Step 18: Create User Role Parameter

1. In the Data Pane, right-click an empty area.
2. Select Create Parameter.
3. Name:

Simulated_User_Role

4. Data Type: String
5. Allowable Values: List
6. Add:

Executive_Admin
US_Regional_Lead
International_Lead
Restricted_Guest

7. Set current value to: Executive_Admin
8. Click OK.
9. Right-click the parameter.
10. Select Show Parameter.

Step 19: Create RLS Calculated Field

1. Right-click in the Data Pane.
2. Select Create Calculated Field.
3. Name:

RLS_Access_Control

4. Enter:
CASE [Simulated_User_Role]

WHEN "Executive_Admin" THEN
TRUE

```

WHEN "US_Regional_Lead" THEN
IF [Country] = "United States"
THEN TRUE ELSE FALSE END

```

```

WHEN "International_Lead" THEN
IF [Country] != "United States"
AND NOT ISNULL([Country])
THEN TRUE ELSE FALSE END

```

```

ELSE
FALSE

```

```

END

```

5. Click OK.

Step 20: Apply Data Source Filter

1. Go to:

Data → netflix_titles → Edit Data Source Filters

2. Click Add.

3. Select:

RLS_Access_Control

4. Click OK.

5. Select only:

True

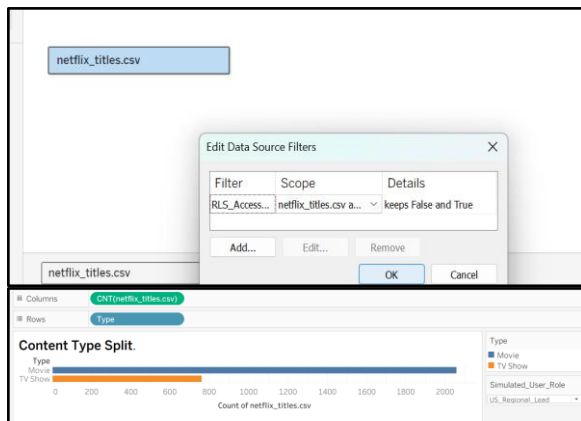

6. Click OK → OK.

Step 21: Test Different Users

Change the parameter:

- Executive_Admin → All data
- US_Regional_Lead → United States data
- International_Lead → Non-US data
- Restricted_Guest → No data

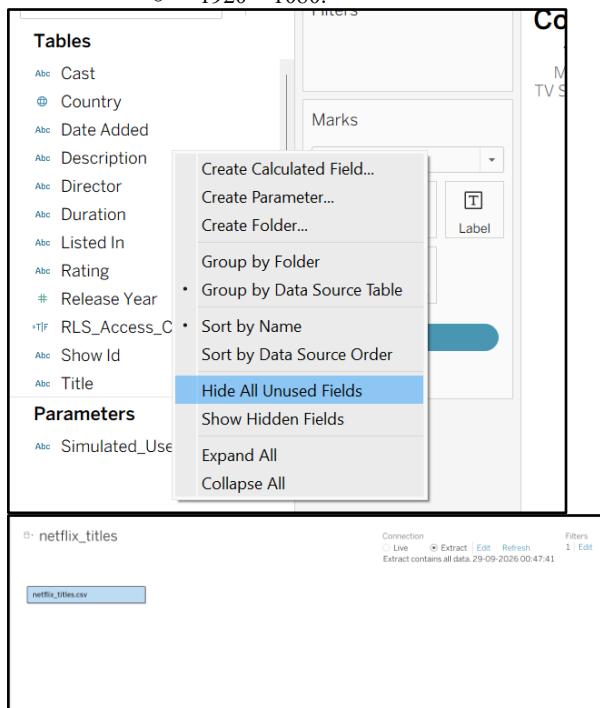

This demonstrates local role-based access control.

G.Evaluate and optimize sharing strategies

Step 22: Optimize Workbook

1. In the Data Pane, select:
Hide All Unused Fields
2. Right-click the data source.
3. Select Extract Data.
4. Click Extract to regenerate the optimized extract.
5. Avoid unnecessary complex calculations.
6. Set the dashboard to Fixed Size, such as:
 - o 1366 × 768
 - o 1920 × 1080.

Final Files You Should Have

After completing the practical, keep these files in one folder:

Netflix_Executive_Overview.png

Netflix_Catalog_Report.pdf

Netflix_Global_Content_Catalog.twbx

netflix_titles.csv

Your final Tableau dashboard should contain:

Netflix Global Content Catalog Analysis

Content Type Split	Top 10 Ratings
Growth by Release Year
